## Coaching Workshops

These 3-4 hour practical coaching workshops are aimed at providing club coaches and teachers who are regularly planning sessions with a better understanding of specific areas of player and game development, the toolkit required to analyse and correct technique, and fresh ideas for building practices and sessions.

The series of workshops have been carefully designed to complement the qualifications pathway (UKCC). Candidates are provided with high-quality resources and coaching cards to take away and use in their own coaching environments and are actively encouraged to participate in the activities during the workshops.
