## Netball @ Queen Ethelburga's

New staffing at Queen Ethelburga's will see Yorkshire Jets Head Coach, Anna Carter; extend her role to become the Director of Netball at QE, supported by Superleague player and coach Lindal Rhodes. This will give both present and future students the opportunity to reach their true sporting potential, while accessing a first class academic education.

To develop the Netball programme QE will be offering a minimum of six 100% High Performance Yorkshire Jets Netball Day Scholarships per year to students starting in Year 12. Through this, students will be able to access the sport elite pathway programme for Netball that is embedded within the curriculum. To compliment this, QE will also be offering up to 30 Yorkshire Jets Boarding Scholarships for students aged 11-18 years. However, entry to the sport elite pathway programme for Netball at Queen Ethelburga's is open to all netballers who wish to become the best that they can be.

### Who is the sport elite pathway for Netball designed for?

The programme is designed for aspiring athletes who have a realistic potential to achieve excellence in Netball, and in doing so, perform at the highest possible level. At the same time it gives access to an elite programme that is integrated into the curriculum from the age of 14, allowing a positive balance of academic study and sporting development to be achieved within one of the leading independent schools in the country.

### Who will deliver the course?

Anna Carter is an ex-England player and ex- lead INTC coach for Manchester. She has coached England U17's, U19's, U21's and senior players and teams. She is a four times Netball Europe Winner and currently Head Coach of the Yorkshire Jets and Leeds Metropolitan University Netball programme. Anna will be assisted by Lindal Rhodes who is a Superleague player and coach for Yorkshire Jets.

*'The facilities and staffing put in place to support the young Netballers on the sport elite pathway will allow the students to fully maximise their sporting potential, while maintaining a positive balance with their academic studies'*
